

# COMMERCIAL C6

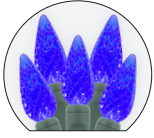

## Commercial Coaxial LED Light String

The largest in the commercial coaxial line, the C6 is a strawberry-shaped lens slightly smaller than its popular counterpart, the C7 bulb. Enjoy longer runs of light and easier installation using commercial LEDs, with water tight coaxial connectors to reduce maintenance time during the busy holiday season.

### FEATURES

- Up to 90% energy savings over incandescent light string
- Coaxial power connection system provides strain relief and keeps moisture out of connections
- Durable construction includes thicker 20AWG wire
- Available in multiple color options
- Connection accessories available for large scale installations while minimizing connections to power
- CSAus Certified or ETL listed for indoor and outdoor use
- 3-season warranty
