# COMMERCIAL G12
## Commercial Coaxial LED Light String

The G12 is a spherical, 12mm diameter, faceted lens that creates a look similar to berries or small orbs where it's installed. Enjoy longer runs of light and easier installation using commercial LEDs, with water tight coaxial connectors to reduce maintenance time during the busy holiday season.

## FEATURES

- Up to 90% energy savings over incandescent light string
- Coaxial power connection system provides strain relief and keeps moisture out of connections
- Durable construction includes thicker 20AWG wire
- Available in four different color options
- Connection accessories available for large scale installations while minimizing connections to power
- CSAus Certified for indoor and outdoor use
- 3-season warranty
