

STARFALL LIGHT

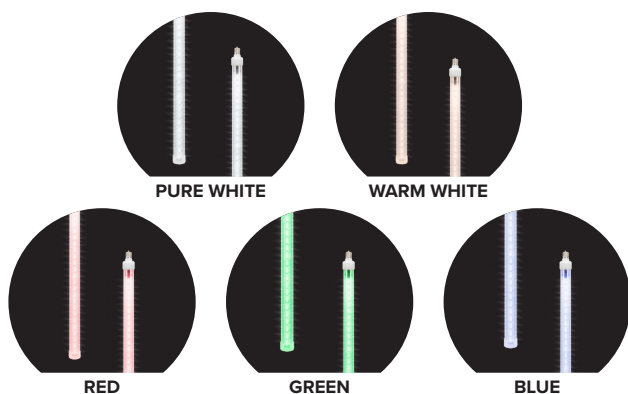

LED Cascading Tube Light

Starfall tubes are designed to look like falling snow, or mimic the look of shooting stars. Enhance the visual impact of your seasonal installation with virtually unbreakable, energy efficient LED tubes and save money and time in a convenient installation process. Simply screw Starfall tubes into existing C9 (E17) light stringers and suspend from tree branches, along roof lines and across the deck in various lengths for a dazzling display of animated light.

FEATURES

- Simulates falling snow for enhanced visual experience
- Easy installation - simply screws into E17 socket stringers
- Three sizes available - 12", 24", and 36" lengths
- Durable polycarbonate lens is virtually unbreakable
