

TWINKLY™ PRO

Controllers

Control your RGB and RGBW Twinkly Pro lights. Whether your installation is small or large these controllers are easy to use. Use a splitter to convert the single port controller into a dual port. Manage your controller via the Twinkly Pro iOS app.

FEATURES

- 120-240V AC power input with 24V DC power output
- WiFi controlled via the Twinkly iOS app
- Control up to 1,500 LEDs
- Splitter* converts your 1 port controller to 2 port controller
- IP65 Rated for Outdoor Use
